Police Chief Greg Rambo read a letter he wrote to Ronald Johnson. Chief Rambo thanked Mr. Johnson for his involvement as a concerned citizen in the apprehension of a dangerous driver. Mr. Johnson’s actions lead to the much needed medical attention for a severely injured infant.

In the same incident, Chief Rambo reported that telecommunicators Ashlee Wathen and Andrew Eagan “operated like a well-oiled machine.” Not only did Wathen and Eagan do what was expected of them, they did it very well. Because of them a severely injured 19 month old child received much needed medical attention. Chief Rambo presented Wathen and Eagan with letters of appreciation for their efforts.

Chief Rambo asked that Officer John Napoleon and Sgt. Gerry Ruff come forward. Chief Rambo reported that Officer Napoleon was dispatched to a “suspicious car” in the area of Morgan and Grace. Teresa Van Ort expressed her concerns of the conditions of many homes on Peoria Street. Mrs. Van Ort said there are houses on her block that cover up “junk” with tarps. A neighbor has several cats and cars at the property, some of the cars have license plates, others do not. Mayor Peterson suggested Mrs. Van Ort provide Public Infrastructure Director Dave Toepper a list of addresses she is concerned about. The Mayor also explained that the Village is looking into an ordinance regarding the number of cats allowed at a residence.

A resident asked the Board to look into the number of trains blowing horns especially in the overnight hours. She reported that the horns seem to be blowing louder and longer at night and are disruptive to residents. Mayor Peterson explained that he has someone looking into the possibility of a quiet zone at the train tracks.

Toni Schultz of Halsted Boulevard reported that the condition of the gazebo needs attention. Dave Toepper of Public Infrastructure will look into the condition of the gazebo.

Steve Thurmond reported that an empty lot on Union Avenue is being used as a semi-truck parking lot. The property is zoned commercial and is not paved. Mayor Peterson will look into the situation.

Mr. Thurmond also asked about the reason for the orange water. Director of Public Infrastructure Dave Toepper explained that due to several recent main breaks, the water is discolored. Toepper is working on keeping the iron levels down in the water by using phosphate. The process will take some time to clear up. The chloramine is still a few months away from introduction into the system. Thurmond asked if the residents in the main break zones could be notified of the break. Toepper informed the audience that CodeRed is used during main breaks and that all registered residents are notified.

Christie Ebert of 222 Barbara Lane suggested a current events ticker for the Village website. Mayor Peterson agreed with the idea and will consider it as the website is revamped.

Harry Hammock commented that postal codes change annually. The Village will continue to get the annual code information from the post office.

If you have questions or concerns about these planned outages, please contact your local ComEd office at (800) 324-7777. You can also visit our website at www.comed.com for more information.

If you are not the property owner, please forward this notice to the owner.

Re: Notification Required under 220 ILCS 5/8-505.1

Dear Mr. Cox:

ComEd intends to perform vegetation management activities on several distribution circuit locations in your city, during the months of September through November of 2013. ComEd midcycle trimming efforts are to enhance reliability. The vegetation management activities are a key component of ComEd’s maintenance program to ensure system electrical reliability, as vegetation contact with ComEd equipment is the leading cause of outages.

In accordance with applicable statutory requirements, ComEd is required to provide each affected municipality a map or common addresses of the area affected by the vegetation management activities. These common addresses are attached at the bottom of this letter.

Please be aware that ComEd has notified any affected customers and property owners with (i) a statement of the vegetation management activities planned, (ii) the address of a website and a toll free telephone number at which a written disclosure of all dispute resolution opportunities and processes, rights, and remedies provided by the electric public utility may be obtained, (iii) a statement that the customer and the property owner may appeal the planned vegetation management activities through the electric public utility and the Illinois Commerce Commission, (iv) a toll-free telephone number through which communication may be had with a representative of the electric public utility regarding the vegetation management activities, and (v) the telephone number of the Consumer Affairs Officer of the Illinois Commerce Commission. The notice also stated that circuit maps or common addresses of the area to be affected by the vegetation management activities are on file with the local municipal or county office. A sample copy of this notice is also included with this letter.

We recognize that our vegetation management activities sometimes create concern by your residents because trees near our electrical wires are significantly trimmed or sometimes require removal. Qualified line-clearance workers contracted by ComEd will
be performing the tree pruning work. Supervisors and General Foremen will be in close contact with the crews, ensuring that the work is performed properly. Additionally, we are strong advocates of proactive efforts to ensure that only appropriate vegetation is planted near our facilities, and our easement and leases usually specify vegetation restrictions. Trees that grow greater than 20 feet, for example maple, elm and blue spruce, should never be planted under or near distribution power lines. At full height, these trees could contact lines and cause a power outage or create a safety issue. On the other hand, trees and bushes that grow to heights less than 20 feet, for example dogwoods or crabapples, can often be planted near distribution power lines. For more information about vegetation maintenance along power lines and ComEd’s “Right Tree, Right Place” program, please visit:
http://www.comed.com/sites/customerservice/Pages/TreesPowerlines.aspx

Please contact me at (815)600-1655, or via e-mail at nicholas.honiotes@exeloncorp.com, if you have any questions or if I can be of assistance to you in any other way.

Sincerely,

Nick Honiotes

Land Erosion, Lake Hills Subdivision

We have a very serious erosion problem stemming from the pond adjacent to our properties at 159 and 163 Lake Hill Drive.

Ed Myers has been looking into a solution and has contacted numerous agencies. They have done land testing but I have not received information on results. I do know that I have been filling holes with gravel and dirt because of the wild life burrowing under my property (they come underground from the pond). I worry that the land is not safe and would like to see the results of the land testing.

Now a very serious hole has developed on the 163 Lake Hills property. I talked to Ed on Friday, August 30, and he promised to look into this new problem.

I am sending this letter just to keep you informed as to what is happening.

If the village cannot help us, perhaps you can advise a proper course of action.

Ed has a complete file of everything that he did for us. If you need further information, please call or e-mail me.

Thank you.

Sincerely,

Jean Krizic

Dear President Peterson, Jr;

Will County Center for Community Concerns (WCCCC) has been an important part of the Will County social service community for more than 25 years. Our mission is to assist and enable low-income individuals and families to obtain the opportunities needed to prepare themselves for self-sufficiency. In 2012, Will County Center for Community Concerns provided a total of 13,735 services to Will County households and individuals at a total cost of $6,299,843.38.

Each year we assess the needs of our community by collecting and evaluating surveys about perceived needs. The need for utility assistance is always quite high, as is the interest in housing programs. We have several utility assistance programs available, including the Low Income Home Energy Assistance Program (LIHEAP), the Percentage of Income Payment Program (PIPP), and the ComEd Residential Special Hardship Program. Our Illinois Home Weatherization Assistance Program (IHAP), the Home Modification Program, and the Home Repair Program help keep families in safe, stable, affordable housing.

We have seen an incredible increase in the number of households facing foreclosure that need counseling or financial assistance to save their home. Families that are already struggling financially with the rising costs of food, utilities, transportation, and healthcare are now losing their homes after failing to keep up with their mortgage payments. To date more than 1,800 households have been assigned to our agency through the Illinois Housing Development Authority’s Hardest Hit Program for temporary mortgage assistance, and we also provide no-cost housing counseling services to help families work through the foreclosure process.

We know that when families are struggling financially, our communities becomes less stable. In 2012, WCCCC helped stabilize the Village of Steger by expending $89,633.34 in direct client assistance, providing 242 services. As the Village of Steger allocates funds for FY 2013/2014, WCCCC requests that consideration is given toward making a donation to help us continue our efforts to maintain the stability of our Will County communities.

Will County Center for Community Concerns is grateful not only for your financial support, but also for the relationship we have developed with the Village of Steger that allows us to provide excellent service to your residents. If you have any questions about our agency, or would like additional information about our programs, please visit our website (www.wcccc.net) or contact Kris White at (815) 722-0722 ext 201, or by email at kwhite@wcccc.net.

Social Media Policy

At the Village of Steger we understand that social media can be a fun and rewarding way to share your life and opinions with family, friends, and co-workers around the world. However, use of social media also presents certain risks and carries with it certain responsibilities. To assist you in making responsible decisions about your use of social media, we have established these guidelines for appropriate use of social media.

This policy applies to all employees who work for the Village of Steger.

GUIDELINES

In the rapidly expanding world of electronic communications, “social media” can mean many things. “Social media” includes all means of communicating or posting information or content of any sort on the Internet, including to your own or someone else’s web log or blog, journal or diary, personal web site, social networking or affinity web site, web bulletin board or a chat room, whether or not employed or affiliated with the Village of Steger, as well as any other form of electronic communication.

Ultimately, you are solely responsible for what you post online. Before creating online content, consider some of the risks and rewards that are involved. Keep in mind that any of your conduct that adversely affects your job performance, the performance of fellow employees or otherwise adversely affects members, customers, suppliers, people who work on behalf of the Village of Steger or the Village of Steger’s legitimate business interests may result in disciplinary action up to and including termination.

Know and follow the rules

Carefully read these guidelines, as well as all other Village of Steger written employment policies, procedures, notices, memoranda and manuals, and ensure your postings are consistent with these policies. Inappropriate postings that may include discriminatory remarks, harassment, and threats of violence or similar inappropriate or unlawful conduct will not be tolerated and may subject you to disciplinary action up to and including termination.

Be respectful

Always be fair and courteous to fellow employees, customers, members, suppliers or people who work on behalf of Village of Steger. Also, keep in mind that you are more likely to resolve work-related complaints by speaking directly with your co-workers or by utilizing our Open Door Policy than by posting complaints to a social media outlet. Nevertheless, if you decide to post complaints or criticism, avoid using statements, photographs, video or audio that reasonably could be viewed as malicious, obscene, threatening, or intimidating, that disparage customers, members, or employees or suppliers, or that might constitute harassment by bullying. Examples
of such conduct might include offensive posts meant to intentionally harm someone’s reputation or posts that could contribute to a hostile work environment on the basis of race, sex, disability, religion or any other status protected by law or company policy.

**Be honest and accurate**

Make sure you are always honest and accurate when posting information and if you make a mistake, correct it quickly. Be open about any previous posts you have altered. Remember that the Internet archives almost everything; therefore, even deleted postings can be searched. Never post any information or rumors that you know to be false about the Village of Steger, fellow employees, members, customers, suppliers, or people working on behalf of the Village of Steger.

**Post only appropriate and respectful content**

- Maintain the confidentiality of private or confidential information of the Village of Steger and any other agency that the Village of Steger represents. Do not post internal reports, policies, procedures or other internal business-related confidential communications.
- Do not create a link from your blog, website or other social networking site to a Village of Steger website without identifying yourself as a Village of Steger employee.
- Express only your personal opinions. Never represent yourself as a spokesperson for the Village of Steger. If the Village of Steger is a subject of the content you are creating, be clear and open about the fact that you are an employee and make it clear that your views do not represent those of the Village of Steger, fellow employees, members, customers, suppliers or people working on behalf of the Village of Steger. If you do publish a blog or post online related to the work you do or subjects employed with the Village of Steger, make it clear that you are not speaking on behalf of the Village of Steger. It is best to include a disclaimer such as, “The postings on this site are my own and do not necessarily reflect the view of the Village of Steger.”

**Using social media at work**

Refrain from using social media while on work time or on equipment provided by the Village of Steger, unless it is work-related as authorized by your manager or consistent with the Village’s Equipment Policy. Do not use your Village of Steger issued email addresses to register on social networks, blogs or other online tools utilized for personal use.

**Retaliation is prohibited**

The Village of Steger prohibits taking negative action against any employee for reporting a possible deviation from this policy or for cooperating in an investigation. Any employee who retaliates against another employee for reporting a possible deviation from this policy or for cooperating in an investigation will be subject to disciplinary action, up to and including termination.
Media contacts

Employees should not speak to the media on The Village of Steger’s behalf without contacting the appropriate Department Head or Village Administrator. All media inquiries should be directed to them.

For more information

If you have questions or need further guidance, please contact your Department Head, Village Administrator or the Human Resource Director.

Steger Wildcats football and cheer program would like to have their annual Bonfire before our homecoming game. We would like to be allowed to have donations of firewood be dropped off Thursday, September 26 and Friday, September 27th to be used for the bonfire. We would also like to request the fire department being at Veteran's Park from 5:30pm-8pm to start and extinguish the bonfire and standby for safety reasons. This would be going on at the same time our annual pot luck dinner will be going on and we are expecting 200+ people in attendance for this event. Due to this being our homecoming weekend, we would also to request extra trash cans by concession and if possible 4-6 extra picnic tables to be put by concession. We will, of course, clean up any messes made by the bonfire and the event and dispose of things appropriately.

Thank you,

Steger Wildcats

Dear Mr. Recupito:

Columbia Central School will be hosting our Elementary School Track Meet on Wednesday, September 25, 2013. This event offers our elementary school athletes a chance to showcase their talents on Columbia’s track. To ensure we provide a sufficient amount of seating, we would like to request the use of the village picnic tables. The 12 tables could be delivered September 24th on the grass behind Columbia Central School and removed on September 26th.

Thank you in advance for your time and consideration in this matter. Your previous help with situations like this has helped our students tremendously.

Thank You,
