MINUTES OF THE REGULAR MEETING
OF THE BOARD OF TRUSTEES OF THE

The Board of Trustees convened in regular session at 7:00 P.M. on this 16TH day of November, 2015 in the Municipal Building of the Village of Steger with the Village Clerk Carmen S. Recupito, Jr. attending and Mayor Peterson presiding.

AWARDS, HONORS, SPECIAL RECOGNITIONS AND PRESENTATIONS

Jonathon Birge of the Cook County Metropolitan Agency for Planning addressed the Board regarding the CMAP. Many topics were discussed. A Steger Planning Priorities Report has been distributed to the Mayor and the Trustees. The three primary recommendations of the report were Economic development, Infrastructure and housing. The recommendations are; 1. Capital Improvements Program for types of programs and financing 2. Economic Development recommendation including downtown, Steger Road and IL394 and intersection of Sauk Trail and Cottage Grove. With the Village to undertake a key development study that includes market analysis, short and long term tax with focus on revenue growth and stability. 3. Housing – the recommendation is to continue to work with the Housing Collaborative as good progress is being made. “Up to Code” guide for rental regulations a good resource. After questions from the Trustees regarding retail space, office and warehouse facilities and further studies, Mayor Peterson thanked Mr. Birge for his presentation and the Priorities Report.

MINUTES

Trustee Perchinski made a motion to approve the minutes of the previous Board Meeting, as all members have copies. Trustee Sarek seconded the motion. Voice vote was called; all ayes. Motion carried.

AUDIENCE PARTICIPATION

Meredith Horn of 22805 State Street had questions on building and zoning of properties “grandfathered” in Miller Woods neighborhood, specifically Pat’s Landscaping. Mayor Peterson explained that usually properties in the area that operate businesses and are sold should revert back to residential zoning when sold. Ms. Horn asked if neighbors must be notified if a zoning variance is requested. Attorney Asprooth explained that all neighbors within 250 ft. of the property in question must be notified. Mayor Peterson explained that neighbors are usually served with a notice of the zoning hearing via certified mail and the petitioner must show proof of service. Neighbors will be invited to attend the hearing and concerns may be heard. Ms. Horn asked if the Board would require the new owners to level the

land back to grade as the current grade has negative impact on drainage in the area. Mayor Peterson explained that the Building Department attends zoning hearings and would share that type of information with the Board at the hearing. Ms. Horn also stated that a new owner should be required to maintain the ditch at the back of the property in perpetuity.

**Support House bill
to keep Balmoral
Park open**

For the last 30 years, the Chicago Southland Convention & Visitors Bureau has been a proud supporter of Balmoral Park and is saddened with the news that the Illinois Racing Board is shutting the doors on such a historic venue.

However, there is always a solution to every problem. Closing Balmoral Park happens to be the wrong solution.

I am thankful for state Rep. Thaddeus Jones, D-Calumet City, taking the lead with legislation that will amend the Illinois Racing Act of 1975. House Bill 2663 would allow Balmoral Park to gain at least 30 days of racing, which would not only keep the track open but save jobs in the process.

The problem, unfortunately, runs deeper than Balmoral Park. The off-track betting

facilities that are associated with Balmoral Park and Maywood Park, which is also set to close, could remain open for the next few years but would be adversely affected by the way that OTB money is distributed.

The negative economic impact from closing Balmoral Park as of Dec. 31 will be felt throughout the Southland but more directly by the communities of Crete, Beecher, Steger and Monee. The jobs that are lost will ultimately affect us all. The group tours, out-of-town visitors and harness racing enthusiasts that visit Balmoral Park also will be gone.

These negative economic consequences could be side-stepped by banding together as a region and doing everything possible to save the race track. This is why I am encouraging everyone to phone, send an email or write a letter to your legislators in support of House Bill 2663. Let's band together

and preserve Balmoral Park.

For the better part of a century, Balmoral Park has been a staple in the Southland. Let's do our part to support state Rep. Jones' efforts in getting House Bill 2663 passed.

WHEREAS, one component of the District's stormwater management program includes green infrastructure, which hereinafter shall mean the range of stormwater control measures that use plant/soil systems, permeable pavement, stormwater harvest and reuse, or native landscaping to store, infiltrate, and/or evapotranspire stormwater and reduce flows to the sewer systems or to surface waters as more fully set forth at 415 ILCS 56/5; and

WHEREAS, the District has committed to developing an enhanced rain barrel distribution program ("Rain Barrel Program"), in conformance with Appendix E, Section II(A) of a certain consent decree entered into in United States, et al., v. Metropolitan Water Reclamation District of Greater Chicago, Case No. 1:11-cv-08859 (N.D. Ill. 2014) ("Consent Decree"), and the District's formal commitment herein is intended to satisfy that obligation; and

WHEREAS, on April 17, 2014, the District's Board of Commissioners adopted a Rain Barrel Program Policy ("Rain Barrel Program") that is intended to satisfy certain requirements of the Consent Decree, and as part of the Policy, the District intends to develop a Municipal Distribution Network of its Rain Barrel Program as further set forth herein; and

deemed a waiver for subsequent instances of the performance, requirement, or condition. No such waiver shall be construed as a modification of this Agreement regardless of the number of times the performance, requirement, or condition may have been waived.

ARTICLE 14. SEVERABILITY

If any provision of this Agreement is held to be invalid, illegal, or unenforceable, such invalidity, illegality, or unenforceability will not affect any other provisions of this Agreement, and this Agreement will be construed as if such invalid, illegal, or unenforceable provision has never been contained herein. The remaining provisions will remain in full force and will not be affected by the invalid, illegal, or unenforceable provision or by its severance. In lieu of such illegal, invalid, or unenforceable provision, there will be added automatically as part of this Agreement a provision as similar in its terms to such illegal, invalid, or unenforceable provision as may be possible and be legal, valid, and enforceable.

ARTICLE 15. DEEMED INCLUSION

The parties agree that this Agreement may be executed in quadruplicate.

The rights and remedies of the District or the Village shall be cumulative, and election by the District or the Village of any single remedy shall not constitute a waiver of any other remedy that such party may pursue under this Agreement.

Metropolitan Water Reclamation District of Greater Chicago

Rain Barrel Program

A component of the District's Green Infrastructure Program

I. PROGRAM DESCRIPTION

Rain Barrels are a form of green infrastructure that are designed to capture and reuse rain water. The largest benefit of rain barrel use is achieved by disconnecting the roof runoff from the system and installing rain barrels to reuse water. Roofs comprise 41% of the impervious surface in Cook County. Many of these surfaces are directly connected to the public drainage system.

The goal of the Metropolitan Water Reclamation District of Greater Chicago's (District's) Rain Barrel Program is removing the direct load from entering the sewer system, reducing basement backups, and reducing combined sewer overflow volume, overland flooding, and infiltration and inflow. The District believes the value of keeping water out of the system will benefit the community.

The District's Rain Barrel Program will utilize three distribution networks throughout its service-delivery area to distribute and promote the use of rain barrels. These networks are described in Section II. Each rain barrel distributed will display a specially-designed label that summarizes the environmental benefits of using rain barrels (see Attachment A).

II. DISTRIBUTION NETWORKS

The three networks that will be utilized to distribute rain barrels are: municipalities, community groups/non-governmental organizations and campus-type facilities.

A. Municipalities

Cook County has 129 communities within the District's service area. Each community will be encouraged to adopt the Rain Barrel Program as its own. This program is contingent on funding approval by the Board of Commissioners on an annual basis. Until otherwise indicated, the Program will provide free rain barrels to residents who live in the District's service area.

Municipalities are required to enroll in this free program via an Intergovernmental Agreement (IGA). Once an IGA is signed, municipalities may order rain barrels, connection hardware, and delivery for their residents from the District's vendor at no cost to the municipality. The District will cover the cost of the rain barrels, the connection hardware and home delivery as the District has a contract with a vendor in place; the vendor will furnish and deliver rain barrels, and municipal partners will be

provided with an email address and telephone number that can be used to order the rain barrels for delivery to residents. Distribution will be limited to a maximum of four rain barrels per home.

The District will provide the following templates for municipalities to use:

- **Sample letter and rain barrel reservation form** – The letter and form can be adapted and mailed to residents; the form is designed to collect the information needed to place an order on the resident's behalf.
- **Sample brochure that can incorporate your logo** – Upon request, the District will provide municipalities with a supply of brochures imprinted with their municipal logo.
- **Generic press release** – The language in this generic press release can be used in newsletters, on websites or submitted to local publications.

B. Community Groups/Non-Governmental Organizations

Cook County has many community groups and non-governmental organizations (NGOs) that work to educate residents about stormwater management, green infrastructure and environmental improvement. Community groups and NGOs will have access to the District's rain barrel program. To enroll in this free program, they will be asked to sign a Memorandum of Understanding (MOU). Once the MOU is signed, the community group/NGO may order rain barrels, connection hardware, and delivery for their constituents from the District at no cost to the community group/NGO.

In order to participate, the community group or NGO must:

- Submit a plan to the District describing the utilization of rain barrels;
- Provide detailed ordering information to the District ;
- Periodically ensure proper installation of rain barrels;
- Ensure proper education, care and maintenance of the rain barrels;
- Provide a follow-up report on rain barrel distribution. The report should include the following information:
 - email addresses of constituents receiving the rain barrel(s)
 - street addresses where rain barrels were installed
 - number of rain barrels installed, with a maximum of four rain barrels per home or location
 - a brief report of project successes and/or lessons learned in implementing the project.

C. Campus-Type Facilities

Campus-type facilities include: schools, municipal properties (i.e. town halls, libraries, park district facilities, fire and police stations, garage/outbuilding), churches,

community centers, senior centers, hospitals and clinics. The District will provide free rain barrels to any such facility committed to be a community partner and good steward of stormwater. The facility representative should contact the District regarding execution of a template IGA or MOU and to complete an appropriate application which shall include at a minimum:

- Size of campus
- Number of rain barrels requested
- Percent of downspouts intercepted
- Any other additional stormwater controls implemented on the site

After the rain barrels have been delivered and installed, the facility representative should submit a post-implementation plan or "As-Built" document that provides at minimum:

- addresses and locations where rain barrels were installed
- number of rain barrels installed
- a brief report of project successes and/or lessons learned in implementing the project.

III. MARKETING AND PROMOTION

In addition to providing technical assistance to residents, municipalities, community groups/non-governmental organizations and campus-type facilities on the proper use of rain barrels, a combination of tools will be provided by the District's Office of Public Affairs to promote and market rain barrels to the distribution networks. The tools include the District website, community outreach, public service announcements, email campaigns, press releases, promotion on social media, a rain barrel installation video and distribution of brochures.

Templates for applying for free rain barrels will be provided. In addition, the District can provide materials that utilize logos from the municipalities, community groups/non-governmental organizations and campus-type facilities for program purposes. The District will assign a District liaison to interested municipalities, community groups/non-governmental organizations and campus-type facilities. The liaison can provide assistance and direction during program implementation.

District Commissioners will also play a role in the marketing and promotion of the Rain Barrel Program. Commissioners may use and distribute rain barrels at community events as a means of educating and informing the public about the importance of green infrastructure, promoting the District's Rain Barrel Program, and instructing on proper installation. Upon request of each rain barrel for such events, Commissioners will provide the date, location, and purpose of the event for which the rain barrel(s) is/are being used, acknowledging by signature that the use and distribution is in compliance with the District's Ethics Ordinance policy on political activity.

IV. PROGRAM PERFORMANCE

The District's Maintenance and Operations Department will continue to administer the Rain Barrel Program in cooperation with Engineering and Public Affairs. An assigned resident engineer will administer the rain barrel contract, coordinate deliveries, and document distribution for reporting purposes. The resident engineer will collect the addresses and number of rain barrels delivered and installed. The Office of Public Affairs will document marketing, community outreach and technical assistance and submit this information to the resident engineer for inclusion in an annual report.

V. LABEL

A label will be affixed to every rain barrel distributed (see Attachment A). The label summarizes the environmental benefits of using rain barrels and green infrastructure.

VI. FORMS

Draft forms pertaining to this program are attached and will be modified to include information pertaining to the specific participating municipality, community group/non-governmental organization or campus-type facility:

Installation Instructions

Please read these instructions and warnings thoroughly before beginning installation and retain for future reference.

INCLUDED

- Rain barrel body (A)
- Rain barrel lid (B)
- Mesh filter (preinstalled in lid) (C)
- 1 overflow hose and 1 hose clamp (D)
- 1 spout, 1 rubber gasket, 1 nut (E)
- 4 screws

NEEDED

- Slothead and Phillips (crosshead) screwdrivers
- Wrench
- Tape measure and marker
- Safety glasses, safety gloves
- Hacksaw
- Hammer or chisel

Step 1 Locate

Choose a location below a downspout for your rain barrel. The location must have level, firm ground. A 3'x3' paving stone can be used to provide stability. Avoid locations near ground-level basement windows or window wells.

Step 2 Assemble

Put the rubber gasket on the spout and place it through the hole at the front of the barrel. Thread the nut onto the back of the spout from inside the barrel. Hold the nut in place with a wrench and hand tighten only. It only needs to be tight enough to prevent water leakage. Use caution as over-tightening can crack the barrel.

Step 3 Cut Downspout

Place the barrel beside the downspout to measure and mark your required cut. Make sure to allow enough room for the barrel, lid and elbow spout. **Wearing safety glasses and gloves,** cut the downspout using a hacksaw. Attach your existing elbow spout (F) to the new downspout end.

Step 4 Overflow

Choose which side overflow spout you will use. Both spouts are blocked by a plastic disc by default. Remove the disc by inserting a slot screwdriver or chisel into the overflow tube from the outside, and gently tap with a hammer around the edges of the disc until it pops free. Attach the overflow hose using the hose clamp and a slot screwdriver. Direct the other end of the hose to wherever your downspout originally drained, which should be either a splash pad or sewer drain.

Step 5 Attach Lid & Place

Place the lid on the barrel and affix using the four provided screws (#6 x 1.5") and a crosshead screwdriver. Hand-tighten only. Over-tightening may crack the plastic. Place assembled bin under downspout and ensure it is level and stable.

Option Connecting Multiple Barrels

Multiple FreeGarden™ RAIN barrels can be connected to collect additional water from the same downspout. On each additional barrel tap out BOTH plastic discs in the overflow spouts as in Step 4 above, then connect and clamp the end of the first barrel's overflow hose to one of the spouts of the additional barrel. Clamp and connect another overflow hose to the other spout of the additional barrel and direct the open end to wherever your downspout originally drained (usually a splash pad or sewer drain).

Usage

Congratulations! You can use your collected rainwater for many purposes, such as:

- Watering lawns
- Watering gardens
- Washing cars
- Cleaning outdoor furniture
- Washing garden tools and containers
- Watering indoor and outdoor potted plants

Note: NEVER DRINK OR INGEST STANDING WATER. Do not allow ingestion by pets and animals, and do not cook or wash anything in collected rainwater in any way that may result in ingestion. Ingestion may cause serious illness or death. See below for further important warnings.

Maintenance

SUMMER

Clean the screen once a month to prevent clogging. Check for erosion under/around rain barrel; platform/support must remain level and stable at all times.

WINTER

Drain barrel and store in shed or garage. If left outside with freezing water inside, the barrel may crack.

WARNINGS

Drowning Hazard

Never permit children to play on, in, or near a rain barrel. Always affix the lid securely to avoid drowning. Never use a rain barrel without the lid securely affixed, or with a damaged, cracked, warped or broken cover. Never place a rain barrel near a deck, stairs, chair, or other structures or items that may allow a child to climb above, on, or in the rain barrel.

Water Contamination Hazard

Do not use collected water for drinking, cooking, washing or in any way that may result in ingestion of the water by humans and/or animals. Water in rain barrels may become stagnant and/or contaminated. Ingesting rain barrel water may cause serious illness or death. Use only for watering plants and cleaning of outdoor items not related to eating or drinking.

Tipping Hazard

A misinstalled rain barrel may tip over causing bodily injury or property damage. Never place rain barrels on non-level or uneven surfaces. Always use a solid, stable platform under the rain barrel. Water is very heavy. The preparation and placement of the installation are critical; the platform must be level and provide robust support for a filled rain barrel.

Electrical Hazard

If the downspout contains heating cables, there is a potential electrocution or fire hazard during installation. Ensure power is disconnected at the electrical panel before manipulating heated downspouts. Consult a qualified electrician for modifications to heated downspouts.

Installation Hazards

Rain barrels are for water collection and outdoor use only. No other uses are recommended. Downspout edges may be sharp. Wear protective gloves when cutting and handling downspouts. Always wear safety glasses when cutting or drilling to prevent eye injuries. Protect siding from damage by inserting a sheet of plywood between the downspout and siding. Read all instructions and warnings thoroughly before installing this product.

Warning and Limitations

Improper installation and maintenance may result in property damage, bodily injury and/or death. Enviro World Corporation is not responsible for any damages or injuries caused by or resulting from improper installation and/or continued maintenance. Retain this sheet for future reference.

Maintaining and Using Your Rain Barrel

You can use rain barrel water to wash your car, water your lawn, or clean work boots and tools. Rain barrel water is naturally free of chlorine, lime, and calcium, and some gardeners swear their plants prefer it.

Rain barrel water is runoff from your roof, so do not drink it or use it for bathing! Disconnect your rain barrel if you need to use a moss killer on your roof. Wait for a few rainy days before reconnecting your rain barrel to allow the moss killer to rinse away. Do not use rain barrel water on plants if your home has a copper roof or gutters.

Oh No, Overflow!

Don't worry, your rain barrel is meant to overflow once it is full. Overflow water will spill from the opening on the top and the overflow fitting. Connect a hose to the overflow fitting to direct the water away from your house. You can also connect a second rain barrel to the first one using the included connecting hose and double the amount of water captured before it overflows.

Check on your rain barrel when it is raining to make sure the overflow is not causing flooding or flowing into your neighbor's property. If your rain barrel is properly installed on a pervious surface, overflow water should be absorbed into the ground. If you see water pooling on your property, consider installing a rain garden, which is a type of landscaping designed to absorb water.

Regular Maintenance

Regularly check your gutters, downspouts, rain barrel water intake screen, rain barrel mosquito screen and rain barrel spigot for leaks, obstructions or debris. Also, confirm that the lid is secure so children and animals cannot fall into the rain barrel.

Winterizing

Drain your rain barrel before temperatures drop below freezing and keep the spigot open in the winter so water does not accumulate and freeze.

You can also turn it upside down or bring it inside to ensure no water accumulates in the barrel.

Preventing Mosquitoes

Your rain barrel comes with a mosquito-proof screen under the lid. When the mosquito netting is intact, and there are no leaks where mosquitoes can enter the barrel, your rain barrel should be mosquito-free.

Remove accumulated water from the top of the barrel every 3-4 days during the rainy season. Mosquitoes need at least 4 days of standing water to develop larvae.

If you believe mosquitoes may be breeding in your rain barrel, empty it completely and let it dry out to kill all mosquitoes.

If you want to customize the appearance of your rain barrel, you can

Paint Your Rain Barrel

Follow these steps to paint your rain barrel:

1. Wash it thoroughly with soapy water to remove any dust or dirt.
2. Once the barrel is dry, apply a plastic primer designed to adhere to polyethylene plastic. Follow the instructions for the primer, including safety precautions.

Note: Don't skip this step. Primer is important! Paint will not stick to a rain barrel without primer, and house paint primers will not adhere well to rain barrel plastic.

3. Gently buff the primer surface with fine sandpaper to remove any glossy areas.
4. Paint the barrel with artist's acrylic paint. Acrylic paint is durable and won't chip or crack as easily as other paints.
5. Allow several days for the paint to dry completely and apply a clear spray sealant to protect your artwork. Follow the instructions for the spray sealant, including safety precautions. This will protect your work of art from the elements.

OPERATING AGREEMENT

THIS OPERATING AGREEMENT ("Agreement") is entered into by and between the Village of Steger, Illinois ("Village"), an Illinois municipal corporation, and Lockridge Outdoor Advertising, LLC ("Lockridge") a limited liability company licensed to do business in the State of Illinois. For convenience, the Village and Lockridge may be referred to as the "Parties" or individually as a "Party."

RECITALS

WHEREAS, the Village recognizes the need for gateway signage and the benefits of using such signage to communicate information of interest to the general public, including Amber Alerts and other emergency public safety messages (the "Gateway Signs");

WHEREAS, Lockridge desires to operate signs in the Village; and

WHEREAS, the Parties desire to enter into this Agreement to leverage their strengths and meet their goals;

Therefore, in light of the foregoing and based upon the exchange of valuable consideration by and between the Parties to this Agreement, the Parties hereby agree as follows:

At its own expense, Lockridge will construct two (2) Gateway Signs located on approved Highway Placement Locations as designated the Village.

The Gateway Signs shall possess the following characteristics:

- Each sign shall include a static portion displaying the message "Welcome to the Village of Steger, Illinois" and the name of the then-current Mayor of the Village;
- The signs shall also include separate portions with one or more sign faces each measuring no more than one hundred and five (105) square feet in area. Such faces may utilize electronic LED-type technology at the discretion of Lockridge and at Lockridge's sole cost and expense; and
- The Gateway Signs will each stand at least fifteen (15) feet in height but shall be no more than twenty (20) feet in height, as measured from grade or road grade, whichever is greater.

All costs, expenses, and liabilities incurred in conjunction with the construction of the Gateway Signs, including the installation of mutually agreeable landscaping surrounding the signs, shall be paid by Lockridge and, at all times, Lockridge shall be the owner of the signs.

The Village grants to Lockridge the exclusive right for a term of twenty (20) years to operate the Gateway Signs (the "Term"). During this 20-year Term, Lockridge shall be responsible for operating and maintaining the Gateway Signs. All costs associated with the operation of the Gateway Signs during the 20-year Term shall be paid by Lockridge. This

The Village agrees not to erect any signs, buildings, structures, or blockages of any kind which will obstruct or hinder the Gateway Signs to motorists, or obstruct Lockridge's ingress or egress to the Gateway Signs. In the event that Village-controlled trees or vegetation grow to visually obscure or obstruct access to the signs, Lockridge is hereby authorized to trim or remove such new growth at its own expense.

The Parties hereby agree and acknowledge that Lockridge shall be responsible for obtaining all proper licenses, permits, and zoning approvals for the installation of the Gateway Signs.

To the fullest extent permitted by law, Lockridge shall indemnify, defend and hold the Village, its past and present officials (whether elected or appointed), trustees, employees, volunteers, insurers, directors, agents, officers, representatives, attorneys, independent contractors, successors or predecessors and any other party in any way related to the Village, harmless from and against any and all claims, losses, demands, liabilities, penalties, liens, encumbrances, obligations, causes of action, costs and expenses (including reasonable attorneys' fees and court costs), deaths, injuries and damages (whether actual or punitive), whether known or unknown, suspected or unsuspected, contingent or actual, liquidated or unliquidated, that occurred or are alleged to have occurred in whole or in part in connection with the Gateway Signs or Lockridge activities on Village-owned property, the intentional, willful or negligent acts or omissions of the Lockridge, its employees, agents, contractors, or subcontractors, from Lockridge's violation of any law or the rights of a third party or this Agreement. This section shall be interpreted as broadly as possible under state and federal law and shall survive the termination of this Agreement.

By entering into this Agreement, the Village does not waive any immunity provided by local, state or federal law including, but not limited to, the immunities provided by the Local Governmental and Governmental Employees Tort Immunity Act (745 ILCS 10/1-101, *et seq.*).

Lockridge shall obtain, and keep in full force and effect at all times during the term of this Agreement, a policy of liability insurance, with an insurer satisfactory to the Village, for the protection of the Parties against liability arising out of the Gateway Signs or their operations. The liability limits of the policy shall be a general liability insurance policy in the amount of at least \$3,000,000. This policy shall name the Village as an additional insured and shall contain an affirmative statement by the issuer that it will give written notice to Lockridge and the Village at least thirty (30) calendar days prior to any cancellation or amendment of its policy.

If Lockridge or the Village fails (in whole or in part), breaches or otherwise defaults in fulfilling any of its obligations under this Agreement or fails to materially perform, observe or comply with any of the covenants, agreements or obligations hereunder, the same shall constitute and event of default under this Agreement.

Upon the occurrence of an event of default by Lockridge under this Agreement, the Village may terminate this Agreement upon providing ten (10) calendar days' written notice to Lockridge. Notwithstanding the foregoing, the Village may pursue any remedy available at law or equity in an event of default by Lockridge.

Upon the occurrence of an event of default by the Village under this Agreement, Lockridge's remedies shall be limited to terminating this Agreement upon ten (10) calendar days' written notice to the Village.

If the area of either or both Gateway Signs is taken by eminent domain, the affected Gateway Sign may be relocated at the discretion of the Village. Moreover, if either or both Gateway Signs are damaged by an act of God or otherwise, Lockridge shall be permitted to repair the damage at its own cost and expense.

If at any point the electronic faces of the Gateway Signs wear out or become outdated, Lockridge shall be entitled to replace them with newer technology so long as the height and size of the faces are not increased.

During the term of this Agreement, should the use of the Gateway Signs be prohibited, limited, or restricted by the terms of any regulation, ordinance, or zoning resolution, or blocked by a new building, Lockridge, at Lockridge's option, may terminate this Agreement by giving the Village sixty (60) days' notice in writing of its election to do so.

These terms shall be binding on all successors or assigns of Lockridge and the benefits of this Agreement shall be freely assignable by Lockridge.

The Parties further agree that: (i) this instrument may be executed in separate counterparts and shall become effective when such separate counterparts have been exchanged among the Parties; (ii) no presumption against or in favor of any person or Party shall apply due to the drafting of this document; (iii) this Agreement constitutes the entire agreement between the Parties and this Agreement shall not be modified by either Party by oral representation made before or after the execution of this Agreement; and (iv) all modifications of this Agreement must be in writing and signed by the Parties.

This Agreement shall be governed by and construed in accordance with the laws of the State of Illinois, without giving effect to its principles of conflict of laws. All suits, actions, claims and causes of action relating to the construction, validity, performance and enforcement of this Agreement shall be brought in the state courts of Cook County.

The Parties acknowledge that the terms of this Agreement have been read, that its provisions are fully understood, that it has been approved by each of them, and that same has been fully signed by them as their free act, by individuals who have the requisite authority to do so, and shall be binding upon all Parties upon execution.

About CEIS

What is CEIS?

The CEIS (Community Electronic Informational Signage) program was established by a family owned outdoor sign development company with over 40 years sign development experience across several states. At no cost to most municipalities, the CEIS program provides attractive, small monument style digital electronic gateway welcome signs with an architectural stone or other attractive finish and landscaping. Municipalities are able to use the sign to communicate community messages, news & events as well as Amber Alerts, law enforcement and severe weather alerts. The CEIS monument style signs are custom designed with the help of your community leaders to beautifully compliment any surrounding, including historic or themed environments.

CEIS Digital Gateway Signs for Your Community

Digital signs are the most significant new addition to outdoor sign technology, capable of reaching mass audiences with multiple messages. Every day there is increasing evidence of the benefits of community electronic signage in law enforcement, disaster planning, and weather alerts. We understand that municipalities may be sensitive to traditional outdoor signage. Our monument signs are beautifully landscaped. We utilize high-quality rock, brick, or stucco facades incorporating wood, metal, water, or other features on a site-by-site basis. The signs include "Welcome to the City of..." or other details your municipality would like.

Dear Friend of Misericordia:

Misericordia is already planning for our Annual Misericordia/Jelly Belly Candy Days tag day fundraising event for next year. **The dates for 2016 are Friday and Saturday, April 29 and 30.** As you know, each year our volunteers collect in street intersections and in front of heavy pedestrian walkways or stores and businesses, distributing tags and packets of Jelly Belly Candy while collecting donations.

We assure you that this tag day fundraiser makes a difference in the lives of the 600 children and adults who call Misericordia "Home", as the funds we receive from the State cover only a portion of our program costs. This year we must raise \$15 million to cover the cost of programs that are not reimbursed.

For some areas, this letter is for information only because we have already received permission or they do not grant permission for streets or intersections. All other areas will find the information they require attached to this letter.

We believe that our residents can achieve, and we believe in the compassionate and generous people who share our mission. For many, a first visit to Misericordia is an eye-opening experience – from programs that provide independent living and work opportunities for our residents to round-the-clock care at the Mother McAuley Skilled Nursing Residence. We provide a full continuum of care and quality programs to meet the individual needs of all those who call Misericordia home.

If you need more information or have any questions, please contact Misericordia at 773-273-4189 or email mam1955@att.net or nancy.turley@misericordia.com.

For your belief in Misericordia, for your past assistance, and your consideration of this request, we are most grateful. God's blessings on you and yours.

Sincerely,

Sister Rosemary
